## Research Activities

- Research Paper **Improving Points-to Analysis with Compiler Optimizations**, *Co-author*.
- Submitted to ECOOP 2023 (CORE A)
  - Currently pending a review
  - Using compiler optimizations before analysis to improve precision and reduce analysis time
  - Designing a mechanism to integrate static analysis results back into the compilation pipeline
  - Using *saturation* to significantly speed up (more than **3x** on some benchmarks) the analysis at the cost of slightly reducing the precision.
- Research Paper **Comparing Rapid Type Analysis with Points-To Analysis in GraalVM Native Image**, *Lead author*.
- Soon to be submitted to IEEE Access (WOS Q2)
  - Proposed how to use *Rapid Type Analysis* in Native Image and provided various extensions
    - Parallel analysis
    - Incremental analysis
    - Support for heap-snapshotting
    - Incremental analysis using *method summaries*
  - Performed an extensive experimental evaluation
  - Reduced the analysis time by up to **64%**
- Research Prototype **Rapid Type Analysis for GraalVM Native Image**, *Lead author*.
- Alternative static analysis method for GraalVM Native Image
  - **Fully integrated** into the production compiler

---

## Research Collaborations

- GraalVM Team**, *Oracle Labs, Oracle*.
- Initiated a collaboration between Oracle and FIT BUT
  - Oracle is now a **bronze partner** of FIT thanks to the initiative
  - A gift was sent from Oracle to support the research
- Static Analysis of Microservices**, *Baylor University, Waco, Texas*.
- Initiated a collaboration with Tomas Cerny from Baylor University
  - Leading a group of students during their capstone project

---

## Work Experience

- Sep 2020 – now **Research Assistant**, *GraalVM, Oracle Labs, Oracle, Brno*.
- Developing new static analysis methods for ahead-of-time compilers
  - Call graph construction, points-to analysis, compiler optimizations
  - Used *Rapid Type Analysis* to reduce the build time by up to **35%**
- Mar 2019 – Aug 2020 **Software Engineer**, *Knowledge Technology Research Group, FIT BUT, Brno*.
- Worked on a search engine for *semantically enhanced* documents
  - Designed a *distributed system* with multiple types of components
  - Designed a *special query language*, a *compiler* and specialized *searching algorithms*
  - Backend components in Kotlin using Spring
  - Web frontend in TypeScript using React
- Sep 2018 – Feb 2019 **Software Developer**, *MPS Team, JetBrains s.r.o., Prague*.
- Language engineering using MPS
  - Building and maintaining *Domain Specific Languages* and IDE support for them
- Jul 2018 – Aug 2018 **Internship**, *MPS Team, JetBrains s.r.o., Prague*.
- DSL engineering and language engineering in general
  - Converting Antrl4 grammar into MPS project
  - Automatic detection of formatting for a given language
- Feb 2018 – Aug 2018 **Java Full Stack Developer**, *Aura, Aura s.r.o., Brno*.
- Worked on an information system using JavaEE, Spring and Hibernate
  - JSF on the presentation layer and Spring and Hibernate in the backend

# David Kozák

## Curriculum Vitae

✉ dkozak94@gmail.com

in dkozak94

🌐 d-kozak

Jun 2015 – Dec 2017 **Java Developer in Research**, *Automated Analysis and Verification Research Group - VeriFIT*, FIT BUT, Brno.

- *Search-based testing* of concurrent Java programs using *noise injection*
- Integrated SearchBestie with RoadRunner, an open-source tool for dynamic analysis of concurrent Java programs
- Designed and evaluated new heuristics for noise injection

Jan 2015 – Dec 2015 **Android Developer**, *BeeeOn*, FIT BUT, Brno.

- An application for an IoT system
- Automated testing support for the app

---

## Education

2021 – now **Brno University of Technology**, *Doctor of Philosophy, Static Analysis, Compilers, Virtual Machines.*

2017 – 2020 **Brno University of Technology**, *Master of Computer Science, Information Systems.*

### Master Thesis

Title *Indexing of Big Text Data and Searching in the Indexed Data*

Supervisors Ing. Jaroslav Dytrych, Ph.D.

Description Distributed systems, search engines, domain-specific languages, compilers.

Feb 2019 – Jul 2019 **Escola Superior de Tecnologia e Gestao**, *Erasmus student, Software engineering.*

Sep 2018 – Jan 2019 **University of Southern Denmark**, *Erasmus student, Software engineering.*

Feb 2017 – Jul 2017 **Technological Educational Institute of Crete**, *Erasmus Student*, Heraklion, Crete, Greece.

2014 – 2017 **Brno University of Technology**, *Bachelor of Computer Science, Information Technology.*

### Bachelors Thesis

Title *Fine-Grain Noise-Injection Heuristics for SearchBestie Infrastructure*

Supervisors Ing. Bohuslav Křena, Ph.D.

Description Testing and runtime verification of concurrent Java programs.

2010 – 2014 **Grammar School, Svitavy.**

---

## Volunteering

Sep 2019 – Dec 2019 **Vicepresident**, *ESN BUT*, ESN CZ.

- Organized and moderated meetings
- Maintained the ESN office
- Helped the president with running the student club

Jul 2017 – Sep 2019 **ESN member**, *ESN BUT*, ESN CZ.

- Helped foreign students during their Erasmus in Brno
- Taught Czech lessons
- Organized events for hundreds of Erasmus students
- Communicated and cooperated with people from different cultures and backgrounds

---

## Skills

General Problem-solving, algorithms and data structures, software design and architecture.

Interest Compilers, interpreters, static & dynamic analysis, domain-specific languages, integrated development environments.

Languages Kotlin, JavaScript/TypeScript, Java, Python.

Frameworks and libraries React & Redux, JavaFX, Java EE, JPA/Hibernate, Spring.

Soft skills Public speaking, teaching, teamwork.

### Achievements

- Sep 2020 **Dean's award**, for excellent master thesis.
- May 2020 **Expert Panel Award**, *Excel@FIT*.
- Apr 2018 **UnIT Hackaton - Webapps**, third place.
- Dec 2017 **8 from BUT**, first place.
- Sep 2017 **Red Diploma**, for excellent results in Bachelor studies.
- Sep 2017 **Dean's award**, for excellent results in Bachelor studies.
- Sep 2017 **Rector's award**, for excellent results in Bachelor studies.
- Mar 2016 **EBEC Brno**, second place.

---

### Interests

- Competitive programming
- Teaching and learning
- Personal development
- Dancing
- Travelling
- Foreign languages
- Philosophy
- Public speaking
